United Dust Control Suppressant

United Dust Suppressant is a emulsifying plant based product designed with special emulsifiers and high quality naturally derived esters. It is biodegradable and has a lower viscosity for easier handling. This concentrate is blended with water to form a emulsion that are sprayed onto dusty areas to help control dust without the use of non-biodegradable components.

Key Features:

- Environmentally friendly, non-flammable, non-volatile, non-hazardous
- Improves workers safety and health conditions.
- Cost Effective

Uses:

United Dust Suppressant is designed to economically suppress fugitive dust on unpaved roadways, parking lots, landfill facilities and more. It is a effective surface stabilizer that prevents rain and wind erosion.

United Dust Suppressant Application Guide:

Use this product diluted with water 1:10 for normal light traffic area
Anticipated Longevity: 2 to 3 months

NOTE: Dilution rate may need to be adjusted to fit each regional application.

Typical Specifications

Flash Point °C/°F	>150/302
Viscosity, 40°C, cSts	5.258
Avg. Lbs/Gal @ 23 °C	7.3
