## UNITED PICKLE LINE OIL PL-400 HT

### Product Data Sheet

#### Product Description:

**Pickle Line - 400 HT** is designed for use on a Pickle Line mill where the coil temperature may exceed 300 F. PL-400HT is formulated to provide excellent indoor rust protection, and is compatible with most cold rolling mill lubricants.

#### Outstanding Qualities:

1. Helps to prevent scratching/gouging that can occur during coiling and to enhance burn-off in annealing.
2. They can also be formulated with a variety of compatibility for various downstream processes to decrease possible contamination.
3. Pickling of metal is a process where a metal surface is treated to remove impurities like stains, rust and corrosion.
4. United pickle oils are specifically designed and engineered for each customer's specific needs.

#### Technical Information:

Viscosity @ 100 °F, SUS	100-140
Flash Point °F	375
Fire Point °F	390
Specific Gravity @ 60F.	0.85
Appearance	Light Amber - Clear Liquid
