## UNITED RIG WASH

### Product Data Sheet

#### Product Description:

**United Rig Wash** is a special blend of selected non-ionic wetting agents, alkalies and synthetic surfactants designed to produce effective cleaning results in many soil removing applications. It may be used on all metal and other hard surfaces painted or unpainted. **United Rig Wash** rapidly penetrates and emulsifies greasy, oily and grimy soils. It can be easily rinsed with water. **United Rig Wash** is designed for industrial use. At full strength contains pH that could discolor aluminum. **United Rig Wash** also can be used in steam cleaning and pressure washing machines.

#### Outstanding Qualities:

- Chemically Engineered at United for Maximum Effectiveness.
- Rapidly penetrates and degreases Shop Floors.
- Uniquely designed to clean Rigs, Mills & Industrial Equipment.
- Works better, more economical & even smells better than the rest.
- Sold in concentrate formula for economical transport to location
