United Industrial Parts Cleaner 1128

Product Data Sheet

Product Description:

United Industrial Parts Cleaner 1128 General purpose, chemically active release agent is a non-solvent and non-petroleum based lubricant that is completely biodegradable. The non-hazardous, all natural based agent is designed to provide clean, rapid and easy separation of grease and other bituminous materials from industrial parts and equipment. Being derived from a soy oil based polymer our lubricant is environmentally friendly, low foaming and allow hands to work safely with the industrial strength required for the tough jobs.

Outstanding Qualities:

1. Safe and effective industrial parts cleaner.
2. Prevention of sticking and buildup on industrial equipment.
3. Complete biodegradability. United Parts Cleaner contains components that are biodegradable, thus minimizing environmental concerns.
4. Removes previous residue left by previously used inferior release agents.

Typical Specifications:

Flash Point °C/°F	>150/302
Viscosity, 40 °C, cSts	5.258
Avg. Lbs/Gal @ 23 °C	7.3

Ready to use or can be formulated for water miscibility

Supplying Quality Industrial Lubricants to the Metals Industry since 1906
