UNITED X-850 CONCENTRATE KG

Product Data Sheet

Product Description:

United X-850 Concentrate KG is a high-quality aluminum cold rolling additive composed of select additives used throughout the aluminum cold rolling industry. This is Kosher-approved and does comply with FDA CFR 178.3910.

United X-850 Concentrate KG is produced from a hydro finished middle distillate. It provides good cooling and lubrication during metal reduction operations with low evaporation losses. The highly refined distillate has low Sulphur and low aromatics resulting in excellent non-staining characteristics.

Outstanding Qualities:

1. Low Acidity and Sulphur
2. Resistance to Brown staining on metal during annealing
3. Low evaporation loss because of compact boiling range
4. Excellent load bearing and rolling characteristics

Technical Information:

API GRAVITY @ 60° F.	36
SPECIFIC GRAVITY @ 60° F.	0.845
FLASH POINT, COC, ° F.	290
FIRE POINT, COC, °F.	310
POUR POINT, ° F.	+75
SAPONIFICATION VALUE	60

United X-850 Concentrate KG* is acceptable for use as a lubricant in the manufacture of metallic articles.

That contact food under FDA regulation 121.2531.

*The kg signifies Kosher Grade.
